ABOUT US:

We are a group of engineers from the Food industry who like to deliver great project solutions for our clients. We know what good looks like and aspire to deliver high standard, well balanced and innovative solutions to make our clients' businesses more successful.

We strongly believe in our values of Trust, Respect and Excellence such that it results in our success as a business and develops long term relationships with our customers. A key driver of Ishi Projects' success so far has been our approach to being an integral part of the customer's business to really understand customer requirements – not only project requirements but also the commercial environment the customer operates in. This helps us to develop finely balanced solutions for our customers which meet operational, engineering and commercial requirements of the business.

We have over 20 years of experience in food industry applications including food processing, packaging, food storage solutions, civil infrastructures and state of the art/high tech innovative systems.
